

Step 5 RMI-RMAP Public Due Diligence Report

April 18, 2026

1. Company Information

Telex Metals (TM) was established in 2010 as a minor metals company. In 2013, TM was successfully audited and found conformant with the EICC-CFS-CFSP standard. The EICC-CFSP is now the Responsible Minerals Initiative (RMI). TM maintains this compliance annually. The Company RMI Smelter ID number is CID001891. TM processing facility for tantalum products located at 105/115 Phyllis Drive, Croydon, PA. 19021. In January 2022, TM became part of Kymera International, still operating as Telex Metals.

2. RMI-RMAP (formerly EICC-CFSP) Assessment Summary

TM completed an annual RMI assessment on April 1-2, 2026. The assessment is valid for one year. The assessment was conducted by a Responsible Sourcing Audit Firm, in accordance with the RMI-RMAP Standard (Responsible Minerals Assurance Process, For Tantalum, Effective June 1, 2018). The summary report is public and can be found @ RMI website:

<http://www.responsiblemineralsinitiative.org/tantalum-conformant-smelters/>

3. Company Supply Chain Policy

TM has developed a Supply Chain Policy. This policy addresses the use of conflict minerals, which directly or indirectly finances, or benefits armed groups and/or involves other serious human right abuses in high-risk and conflict-affected regions (CAHRAs), This policy is aligned with the third edition of the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas (CAHRA-OECD Guidance). The policy addresses the risks identified in Annex II of OECD Guidance and its geographic scope is global. The company is firmly committed to addressing any risk if/once identified. TM fully supports the Extractive Industry Transparency Initiative (EITI) as well.

The policy is reviewed and approved by Senior Management, which is fully committed to support its implementation. The General Manager (GM) has direct responsibility for the program. The policy has been widely disseminated to customers and vendors alike as part of the Quality Management System (QMS). It appears clearly on all purchase and sales orders. This policy can also be found on the Kymera website under the Policies. Telex Metals: <http://kymerainternational.com/policies-quality-assurance/>.

4. Company Management System

I. Management Structure & Responsibilities

TM follows through on its commitment by implementing the supply chain policy and has established an internal procedure for due diligence as follows:

- The company's Management Team, as part of the QMS, is responsible to oversee the due diligence program and risk management implementation.
- The company has assigned the GM as the due diligence program manager to coordinate the work of the relevant departments, including Purchasing, Quality, Production, and Warehouse

Management to assure each department follows their roles and responsibilities to implement the due diligence program and report any red flags and potential risks identified.

- The company conducts due diligence management system training once a year for key staff from all relevant departments required. If there are any updates to the program, the company conducts additional training to communicate those changes as necessary.

II. Internal Systems of Controls & Transparency

The company has established/updated its due diligence management system to be aligned with the OECD Guidance and RMAP in January 2018. The company communicated the updated supply chain policy and sourcing requirements as part of the AUDIT-CAP Process. Annual Training was conducted in December 2025. The company has incorporated due diligence requirements into legally binding agreements with suppliers using TM purchase and sales orders.

III. Record Keeping System

TM requires that all records relating to the due diligence program are maintained and properly stored for at least five (5) years.

5. Risk Assessment & Management

The company has a robust process to identify risks in the supply chain, which includes a procedure to identify and mitigate risk from any Conflict Affected-High Risk Areas (CAHRA). TM is a Secondary Smelter as defined by the RMAP Standard. All secondary sources of materials meet the definitions established by the RMI-RMAP per Annex V. Any intermediate tantalum containing material, as defined in the RMI-RMAP Tin and Tantalum Standard, are solely sourced from RMI-RMAP conformant smelters. A list of these smelters can be found on the RMI-RMAP website:

<http://www.responsiblemineralsinitiative.org/responsible-minerals-assurance-process/smelter-refiner-lists/tantalum-smelters-list/conformant-tantalum-smelters/>

In addition, TM has implemented the Know Your Counterpart (KYC) due diligence for all suppliers of secondary raw materials in accordance with the June 2018 RMAP Standard to assess potential risk.

All intermediate and secondary tantalum containing materials are fully conformant and consistent with the definitions listed in Annex V: Tantalum Material Types, located in the RMAP Assurance Process for Tin and Tantalum, dated June 1, 2018. KYC is used to assess and identify risks to assure the supply chain for secondary raw materials is consistent with the standard.

Risks identified are red flagged by procedure and reviewed by management to assure compliance. In 2025, Telex identified Brazil, India, and Kazakhstan as high-risk areas, using the TM CAHRA procedure. The necessary actions were taken to address those risks, in accordance with the policies & procedures consistent with our Supply Chain Policy & CAHRA procedures..

All material from CAHRA's were solely sourced from RMI conformant smelters and no red flags were identified for transit routes or suppliers. Therefore, all due diligence is fully consistent with the RMI-RMAP standards and assessment procedures.

6. US (Dodd Frank) and EU Regulations: European Union Conflict Minerals Regulation 2017/821

On December 17, 2020, pursuant to Article 14.2 of the European Union Conflict Minerals Regulation 2017/821, the European Commission Directorate General for Trade (DG TRADE) published the indicative, non-exhaustive and regularly updated list of conflict-affected and high-risk areas (CAHRA's). That list can be found @ <https://www.cahaslist.net/cahras>. The European Union adopted Regulation (EU) 2017/821. The Regulation defined supply chain due diligence obligations for Union importers of tantalum originating from conflict-affected and high-risk areas in accordance with the 5 steps of the OECD Guidance. Consistent with the EU's findings, these regions are included in this policy.

Both the EU & Dodd Frank lists are referenced for CAHRA and the findings are documented in the CAHRA Tracker for annual review.

7. Grievance Procedure

Telex Metals has an open-door Grievance Procedure to report any concerns related to the policy. Any concerns either internally within Kymera/Telex Metals, or externally by any vendors or customers, community, etc., can be sent to info@telexmetals.com or the concerned party can visit the website @ www.kymerainternational.com and contact any management team member directly @ 215-781-6335 to file a grievance. Any concern received will be documented and investigated, and if applicable, corrective action will be implemented in accordance with the RMI-RMAP standard. The GM has direct responsibility for the Grievance Procedure as well. The GM also has a designee assigned if/when unavailable.
